Home Insurance

Risks associated with asset loss and civil liability are omnipresent in your daily life.

It is important to get sound advice regarding your home insurance. Several insurers will offer you standard coverage without necessarily analyzing your real needs in detail. This of course gives you a lower premium, but do you get specific coverage for your \$10,000 watercolour or for your laptop computer that you take along everywhere? And what about your boat and your second home?

By doing business with us, you can be sure that we will look at all your needs in detail. We may even point out risks that you were not aware of! After all, your protection is our top concern!

Once we have examined your needs, we will provide you with a competitive offer that represents the best available coverage on the market, thanks to the many insurers we represent.
